

Full height of visible banner 78.75"

- Be sure and extend your design into the bleed areas
- Delete this template layer or turn it off if you are sending your design flattened.
- If you are sending your design in layers please make sure all links are embedded and your text is turned to outlines.

If you choose to make your design full height but want to be able to also collapse it to the Tabletop height this is what will show when collapsed to 39"

If you choose to make your design full height but want to be able to also collapse it to the Medium height this is what will show when collapsed to 59" of visible banner.
